Reference is made to our correspondence dated October 22, 2001, informing you that the California Regional Water Quality Control Board, Los Angeles Region (Board) would consider adoption of general Waste Discharge Requirements (WDRs) to establish post-closure procedures for inactive nonhazardous waste landfills. The WDRs were to be considered by the Board at a public hearing scheduled November 29, 2001, 9:00 AM, at the Richard H. Chambers United States Court of Appeals Building at 125 South Grand Avenue, in Pasadena, California.

The Board **will not** be considering adoption of general WDRs to establish post-closure procedures for inactive nonhazardous waste landfills at this time. The public workshop to discuss the proposed general WDRs **scheduled on November 8, 2001, 1:00 P.M.**, at the Regional Board Office at 320 W 4<sup>th</sup> Street, Suite 200, Los Angeles, California, 90013 **has been cancelled**. The general WDRs will be considered at a future Regional Board meeting. We will confirm the Regional Board meeting date and rescheduled public workshop in a follow-up letter.
